HAYLING ISLAND BEACH HOUSE

TRESPA PURA NFC® BRINGS LONG-LASTING FRESH AND NATURAL LOOK TO HAYLING ISLAND BEACH HOME

With its unspoilt Blue Flag beaches, Hayling Island, off England's south coast, is the perfect location for a relaxing holiday on the seaside. Designer Ian Murray, owner of architectural practice I J Murray Associated Ltd, wouldn't want to live anywhere else. When he and his wife Carole had the opportunity to buy a plot of land a stone's throw from the beach, they immediately decided it would be the perfect place for their dream home. And if you are in the business, why not design and build it yourself?

"If it was very different to be my own customer? In fact, my wife was the customer, and she was really tough," Murray laughs. "But as a customer it's good to be tough. I was very strict too. So in the end it wasn't very different to any other project."

With its abundance of large windows and charming contrast between the colours and materials of the ground and upper floors, this three-storey house is an interesting mix of rustic and modern elements, blending perfectly into its surroundings. In order to maximize

the view, the windows are sheltered from the sun by the overhanging roof and the ground floor has an overhanging balcony with glass balustrading. Murray: "I felt the urge to do something different than anything else. The design is inspired by its nautical position. The downstairs of the house is like the hull of a ship and the upper floors is like the deck, the cabin on top of the boat."

When it came to siding material, the number one requirement was a long-lasting, fresh appearance without needing lots of maintenance. At ground floor the block work is rendered in white K render, while the upper floors are clad with Trespa Pura NFC® Romantic Walnut (PU08) and White Pine (PU20). "The combination between the white and the two Trespa Pura NFC® tones works very good," says the designer. "Together with the garage doors and front doors I think it creates a really attractive colour palette. I wanted to create a natural look, something that looked like new timber and would stay looking like new timber forever," he explains. "I did not want it to look aged or weary."

I felt the urge to do something different than anything else. The design is inspired by its nautical position."

Ian Murray, owner of architectural practice I J Murray Associated Ltd

"Thanks to their advanced technology, Trespa Pura NFC® siding solutions are built to withstand harsh climatic and environmental conditions and to stay beautiful for many years. Sun, rain or salty sea air have no significant effect on the surface. Murray: "In addition to Trespa Pura NFC®, I looked at other products, whilst cost-wise they were very competitive, they just didn't give me the look I wanted. This product did. The upper part of the construction now has a very modern looking finish; I really

like the clean lines of it and the fact that it retains that look. It's gone through one winter and it's looking completely fresh and new, so I'm happy with it to date." This house was the first time Murray used Trespa Pura NFC® products, since then, he has specified it for a new project that he has coming up at the moment: the Yacht Haven development of six luxury beach homes on Hayling Island for Alpine Homes Ltd.

GENERAL

These terms apply to the use of this document and such use automatically means that the other party agrees to these terms. The information provided by Trespa International B.V. ("Trespa") in this document is solely indicative. Trespa is unable to warrant the accuracy and completeness of this information. Trespa may change the information included in this document at any time and without further notice. Trespa's customers and third parties must ascertain that they have the most recent document (for the most recent version, please consult: www.trespa.com). No rights can be derived from the information provided; the use of the information is at the other party's risk and responsibility. Trespa does not warrant that the information in this document is suitable for the purpose for which it is consulted by the other party. This document does not contain any design, structural calculation, estimate or other warranty or representation that customers and third parties may rely on. This document does not guarantee any properties of Trespa products. Colours used in Trespa's communications (including but not limited to printed matter) and in samples of Trespa's products may differ from the colours of the Trespa products to be supplied. Samples are not intended for use in product tests and are not representative of characteristics of the Trespa

products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides. Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above. The most recent version of the current delivery programme and the Material Properties Datasheet can be found at www.trespa.info. Only the information in the most recent and valid Material Property Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

LIABILITY

Trespa is not liable (neither contractual nor non-contractual) for any damage arising from or

related to the use of this document, except if and to the extent that such damage is the result of wilful misconduct or gross negligence on the part of Trespa and/or its management. The limitation of liability applies to all parties affiliated with Trespa, including but not limited to its officers, directors, employees, affiliated enterprises, suppliers, distributors, agents, and representatives.

GENERAL CONDITIONS

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related activities of Trespa are governed by the Trespa General Terms and Conditions of Sale (*Algemene verkoopvoorwaarden Trespa International B.V.*) filed with the Chamber of Commerce and Industry for Noord- en Midden-Limburg in Venlo (NL) on February 20th, 2015 under number 24270677, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related work of Trespa North America, Ltd. are governed by the Trespa North America General Terms and Conditions of Sale, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. A copy of these general conditions of sale will be provided free of

charge on request. All general terms and conditions other than the conditions mentioned above are dismissed and do not apply, regardless of whether such terms and conditions are referred to on requests for offers, offer confirmations, stationery and/or other documents of the other party, even if Trespa does not expressly object to such terms and conditions.
